

Northeast Region Church of God of Prophecy Convention 2015

Volume 1, Issue 2

July 18, 2015 Evening

Commanding Fire at the Northeast Region Biannual Convention Enough is Enough No More Games

Friday Afternoon July 17, 2015, the church had a brief unexpected intermission, but it was what was needed because North East Regional Overseer returned fired up and told the Devil is Enough is Enough Not in My HOUSE! Bishop Greenaway said he was brought low, but God helped him. It is because of the goodness of the Lord why this convention is convening. At every situation the devil tried to defeat them, but Divine Grace delivered them. He stated, "The devil is a professional assassinator. But there were Miraculous Deliverances. The snare is broken and we have escaped. This church needs the anointing of the precious Holy Ghost. God can take evil and boomerang it back to the devil. Evil can only go so far. The devil can't stop us. We are dealing with end time demons, but the Holy Ghost says fear not arm yourselves, I go before you to protect you. We need end time power. Jesus is the answer. We need the Holy

Ghost and power from on High. We need to rebuke the devil and stand up.

This is where Bishop started shouting and jumping and the congregation went right along with him. He had, had enough; he declared, "No Demon, No Sickness, I Take Authority, I Stand in the name of Jesus. I Command You Satan Get Out of Marriage, Get Out of Ministry, Get Out of Homes. It's time to declare, Satan you have done enough. We don't come to play games or write treaties or compromise with the Devil. This is a war zone. We are going on the defense, going after the jugular. We need to slam dunk the devil. We are NOT defeated or victims, we are more than conquerors. We can't back down now. David and Goliath stood over the giant. We must stand." He continued with I come in the name of the Lord. Tell the Demons my God lives, he reigns, he is sovereign, he is

supreme and is greater than any demon power. Right now We Celebrate victory not tomorrow, but RIGHT NOW TODAY. He ended the message with "Hallelujah! Now its time for Break through. Devil Get Out. The devil is a liar. I will not shut up or shut down. I will not be silenced, I will give God praise."

Dr. Lester Taylor: Do Something Different

Dr. Taylor closed out the night by continuing to fan the flames which were already ignited from Bishop Greenaway's afternoon message. He started and continued with, Times have changed, but some of our local services haven't. The time is right for a break through. Don't see opposition, but opportunity. You can not depend on others for your break through. We need to teach our people to participate in their own rehabilitation. The way to get what you want is:

1. Rise-Get Up

2. Pick Up— Don't let that thing have power over you, you have to control and defeat it. Go get your prayer, peace, worship, vision, and dreams back. Don't just sit there watching and waiting for something you want that everyone else has been doing and getting. You have to do it for yourself, whether its singing, dancing, but you have to walk.

3. Walk- Then he told the congregation to walk in the aisles and that just made the congregation break out in worship and praise. He quoted Psalms 23. Then told the congregation, "Go forward. Your deliverance is forward, Your blessing is forward, Your breakthrough is forward, Your healing is forward. When it comes to break through, desperate people do desperate things. Some of us talk too much and we need to wait for God to deliver us. Don't lose your worship and praise.

With that the congregation just continued to give God praise. The fire was burning through the place so much so Bishop Chambers, the moderator for the evening, didn't know how to close out; the congregation had become the embers and together lit the fire to begin to do something different in the Northeast Region.
